## Beer is Food.

Good beer builds up both bone and brawn. It's strengthening—nourishing. The Germans are the greatest beer drinkers. Where is there a handier or more stalwart race of men? Pure beer is beneficial to invalids, bracing to the weary, refreshing to all. "Rainier" a class by itself. Kept freshly tapped or in bottles at the Criterion Saloon.

Laurer cede Leland, the popular French consul at San Francisco, has lately returned from a year's leave of absence. During his visit to France he received the Cross of the Legion of Honor for meritorious conduct.

In Canada no campaign buttons, ribbons or badges can be worn between nomination and polling day. The carrying of flags as a party badge is also forbidden. The penalty is a fine of \$100 or three months in prison, or both.

## PORTUGUESE VESSEL COMING.

Will Visit This Port Some Time Next Spring.

The Hilo Tribune says that a Portuguese war vessel, the Pero D'Alemquer, will visit the Islands in February next. This vessel is one of four new warships built last year. The Pero D'Alemquer is on a trip around the world.

Consul General Canavarro was asked by a reporter concerning the vessel this morning. He says he has no official knowledge of her coming but from other sources has been made aware of it. He volunteered the information that the Pero D'Alemquer is a transport vessel and not a regular cruiser. She is on her way from Lisbon to Lorenzo Marques with troops. From there she will go to the Portuguese possessions in India for the purpose of taking on board troops whose time of service in India has expired. From India the vessel will go to Macao for more troops, returning home by way of Sydney and Cape Horn, calling at this port en route.

## Gleanings from the Kobe Chronicle.

Japanese (local) subscriptions to the fund for the relief of the sufferers from the floods in Kobe had reached 7,000 yen up to Sept. 20. The receipts are being distributed in a systematic manner amongst both male and female sufferers.

The Elsie Adair Company is playing to good houses in Kobe and Nagasaki.

Advices from Tokio of Sept. 23 state that the last \$25,000,000 of the Chinese indemnity would shortly be paid in and used for increasing the armament of Japanese war vessels.

The Japan Foreign Trade Association has made arrangements for the reception, in a fitting manner, of Li Hung Chang, who was expected to arrive about Sept. 30 at Tokio.

A geyser of hot mud and water 300 feet high and six to eight feet in diameter, suddenly burst out of the ground near Nagahama, North Japan, endangering many houses and farms. Local officials took prompt action and diverted the flow of the stream resulting from the tremendous volume of liquid, so that but little actual damage was done.

Admiral Count Kabayama has been appointed Home Minister and Count Okuma Minister of Foreign Affairs of the Imperial Japanese Government, Tokio.

## Advice to Coffee Growers.

Here is a solution of the blight pest, which has attacked the coffee trees of South Kona, furnished the Tribune by Mr. Alexander Cockburn, who is undoubtedly well posted on coffee matters. The coffee crop of South Kona was a very large one last year. Much carelessness is permitted in the picking of the berries, branches are broken or jerked off and leaves brought together with the berries. The withered branches remain on the trees. This of course weakens the coffee plant, and in that weak state the blight attacks it. After the black blight takes possession of the tree the leaves will turn black as well as the clusters of berries. The primaries appeared as if a lighted candle had been applied to them. The berries stop growing and shrinking of the unripe beans then takes place. Careless growers when harvesting pick the good and bad berries and clean and prepare the whole for the market. This is injuring the marketable value of the Hawaiian coffee abroad. Only the good berries should be picked and prepared for the market. In this manner the Hawaiian product will always have a firm price and steady demand.—Hilo Tribune.
